

LOCATION PLAN 1:1250

SITE PLAN 1:500

Tree protection is to be provided in accordance with BS 5837:2012 to the existing trees on the line of the root protection area. The fence is to be installed prior to any work commencing and is to be maintained until all building works have finished.
The protective fence is to be situated along the edge of the existing drive as identified in the block plan above. Construction of the tree protection fencing shall be weld-mesh panels or close boarding supported on a framework of both vertical and horizontal steel scaffolding which is braced to resist impacts. The fence is to be 2.3m high. Notices should be fixed to the fencing saying 'construction exclusion zone - keep out'
